We have all the luxury building materials you need to make your project stand out.

NEW CASTLE STEEL DECK FRAMING

New Castle Steel is a leading manufacturer of light gauge steel framing. New Castle Steel offers cutting-edge solutions allow you to experience new possibilities in outdoor living spaces that are built to last. Whether you're looking for durability, style, or both, steel framing has everything you need to create the perfect deck frame. Discover the future of deck design and performance with New Castle Steel.

NEW CASTLE STEEL FRAMING BENEFITS

FLAWLESS FINISH

Triple-coated steel offers consistency, durability and reliability that other materials cannot.

ROT RESISTANT

Rot- and termite-proof steel lasts much longer than pressure treated wood framing.

FLAT DECK SURFACE

Precision engineering ensures surfaces remain flat over time.

RECYCLED STEEL

Made in the USA with a minimum of 25% recycled steel, which contributes toward LEED points.

UPGRADED DECK FRAME

Eliminates the headaches of the new pressure treated joists which can have crowns, varying widths, and premature rot.

SIMPSON STRONG-TIE®

For Installation of New Castle Steel Framing

Only use NCS-approved fasteners when installing any decking product. Use of non-recommended decking fasteners could void the warranty.

IMPORTANT THINGS TO CONSIDER...

 **¹HEAT INDEX TEST**
To get an accurate comparison, all deck surface temperatures were measured on the same 90 degree day, in full sun.

 **²OPTIONAL MAINTENANCE**
Advantage Decking™ requires periodic maintenance to preserve its color. Looking for a grey deck? A hardwood deck will naturally grey over time but maintain its strength and integrity.

 **³ROOFTOP/LOW VENTILATION**
Rooftop and low ventilation installations are not recommended for standard hardwood decking. We recommend deck tiles or some synthetic decking in these installations.

ABOUT OUR DECKING COMPARISON CHART

The chart provides a comprehensive comparison of some of the most popular decking options available at AdvantageLumber.com, encompassing both hardwood and synthetic choices. We have meticulously evaluated various factors such as strength, real wood lifespans, and surface temperature concerns to deliver an insightful overview of each option's performance. This quick reference chart is designed to facilitate an easy comparison, helping you make an informed decision based on your specific needs and preferences.

All Advantage Decking™ options are naturally resistant to termites.

Advantage Ipe™ Decking - Miami, Florida

Ash Arbor Wood Siding – Central Wisconsin

WHERE INNOVATION MEETS BEAUTY

Advantage Lumber finish-mills Arbor Wood thermally modified wood for a variety of outdoor and indoor applications including siding, decking, and dimensional lumber. Our process begins with a select grade of domestically grown and responsibly harvested timber which undergoes a thermal modification process using heat and steam. The result is a high-quality, performance-driven material which sustains the natural beauty and design element of wood all without the use of harsh chemicals.

NATRL Pine

NATRL Ash

Arbor Wood Ash Decking - Lakeview Colorado Residence

PRODUCTS & APPLICATIONS

Thermally modified wood can be used in an array of commercial and residential applications. Popular applications are external environments where moisture and humidity would compromise a lesser-grade material.

DECKING

Arbor Wood decking is available in a range of species and profile options. Arbor Wood proves to be a more natural and durable alternative to chemically preserved lumber.

SIDING

Arbor Wood siding is produced from domestically sourced and responsibly harvested wood. Arbor Wood is produced from a range of wood species, profiles, and finish options, including our take on traditional Japanese charred cladding.

DIMENSIONAL LUMBER

From windows and doors to interior flooring and even landscape furnishings, Arbor Wood is available in a range of profiles to allow for a higher-performance natural wood alternative.

Voyage Tundra w/White Decorators Composite Railing – Buffalo, New York

SURESTONE™ TECHNOLOGY

Decorators® mineral-based composite decking is made with patented Surestone™ technology to deliver a cool, comfortable, safe, and lightweight surface for your outdoor space. Mineral-based composite decking boards allow you to recreate a wood-floor look or create a totally custom design for your raised deck, in-ground patio, or boat dock.

SLEEPER SYSTEM AVAILABLE Low Ventilation Patio/Rooftop Installations

For ground-level patios or rooftop decks, water management is an important aspect of your build. The Decorators® Sleeper System elevates your deck surface, helping protect your deck boards from damage due to moisture buildup.

FEATURED ITEM

WISECOAT®
Premium Deck, Siding & Fence Sealer
Water-based wood sealer warranted to prevent water intrusion for up to 10 years. This is a waterproofing sealant designed for use on most any wood species and can be tinted for an enhanced visual appeal.

TINT COLORS:

HARDWOOD INSTALLATION & FINISHES

Professional-grade accessories to prep, install, and maintain your exterior hardwood decking and siding.

IPE CLIP® HIDDEN DECK FASTENERS
Unlike most all-metal hidden deck fasteners, which can react with wood, causing staining, the Ipe Clip® allows for the natural expansion/contraction of any hardwood decking.

BOARD STRAIGHTENERS
Both the Hardwood Wrench™ and the new lightweight Hardwood Wrench Jr.™ straighten warped decking and siding boards into place, making fastener installation a breeze.

1X RAINSCREEN 3/4 BOARD SIDING CLIPS
No need for furring strips. This 3/4 wood board clip is installed over plywood or OSB sheathing and provides a 3/4-inch standoff for air ventilation. Create a sleek, upscale and modern siding installation.

CLEANER & BRIGHTENER
DeckWise® Wood Deck Cleaner & Brightener remove dirt and greying in preparation for applying finishes.

HARDWOOD PLUGS

Create a smooth face-screw install with these wood plugs, available in a range of wood species.

STAINLESS STEEL SCREWS

DeckWise® offers a wide variety of stainless-steel deck screws for almost any installation. From Trim-heads to bugle-heads and even metal joist screws.

WISEGUIDES®

The days of using nails for gaps are over! Build beautiful, consistent deck board gap intervals time after time for expert results.

WISESEAL® & IPE SEAL®

Water-based WiseSeal® (paintable and stainable after 24 hours) or Wax-based Ipe Seal® End-Grain Sealant specially formulated to protect against checking and cracking on fresh-cut ends of boards.

DRILL & DRIVE™

The Drill & Drive™ is a 3-in-1 tool you can use to pre-drill, countersink, then flip the insert and drive screws into decking.

WISEWRAP® & JOISTTAPE®

Protect joists from wood rot, decay, and corrosion with JoistTape™—a self-sealing, waterproof tape available in asphalt or butyl, featuring a self-adhering adhesive.

DECK TILE CONNECTOR SYSTEMS

DECKWISE® DECK TILE CONNECTORS

Deck Tile Connectors offer a quick and easy way to construct semi-permanent/modular decking or renovate any outdoor living space using hardwood deck tiles.

ALTITUDES PEDESTAL® SYSTEMS

Engineered to build perfectly horizontal decking over underutilized spaces such as sloped roof tops and plaza areas. Elevate deck tiles or level a sloped rooftop area.

Advantage Tigerwood™ (Brazilian Koa) Deck on a Log Cabin - Troy, New York

SURFACE DECKING

Advantage Decking® options are dense & durable and also offer natural resistance to rot, decay, insects, and weathering. All Advantage Decking® species are known for their strength and longevity.

Modern Narrow (4") Advantage Brazilian Redwood™ Deck - Williamsville, New York

Advantage Tigerwood™ T&G Porch - Huntersville, North Carolina

SIDING + CLADDING

Durable. Long-lasting. Authentic. Unlike the artificial appearance of vinyl or aluminum siding, the look of genuine Advantage Siding™ cannot be duplicated. Advantage Siding™ mixes tight grain and natural oils to create a reliable barrier against the elements.

CEILING + SOFFIT

A wood ceiling represents comfort and warmth. At AdvantageLumber.com®, we can give your home that feeling with our wide variety of woods.

FENCING

Advantage Hardwood™, with its proven long lifespan and minimal upkeep, is the perfect solution for fencing, providing a natural, luxurious look. A fence made from Advantage Fencing™ offers durability and elegance for your outdoor living area.

ADVANTAGE DECK TILES®

Quickly renovate your outdoor living space with Advantage Deck Tiles®. Our modular deck tile system is a great solution for covering an old cracked concrete patio or for going over flat roofs without having to build a frame.
