WHICH DECKING IS RIGHT FOR YOU?

Decking Species

Ipe Decking (Brazilian Walnut) - (pp. 8-9)

Appearance: An extremely dense, tight-grained wood. Generally a deep rich brown with some pieces displaying red and amber hues.

Hardness: 3680 lbs / 3x Harder than Teak

Bending Strength: 25,400 psi

Benefits: Ultra-low-maintenance. Highest rating for termite & decay resistance. Proven lifespan of 75+ years.

Cumaru Decking (Brazilian Teak) - (pp. 10-11)

Appearance: Color varies from a rich display of golden-tan to reddish-brown colors and dark grain accents throughout the wood.

Hardness: 3540 lbs / 8x Harder than Redwood

Bending Strength: 24,800 psi

Benefits: Extremely durable and naturally resistant to decay. Offers up to 50+ year lifespan.

Tigerwood Decking (Brazilian Koa) - (pp. 12-13)

Appearance: Light golden-brown to reddish-brown with irregular black and brown streaks.

Hardness: 1850 lbs / 2x Harder than Cedar

Bending Strength: 19,285 psi

Benefits: Low-maintenance and naturally durable. Offers 30+ year lifespan.

Garapa Decking (Brazilian Ash) - (pp. 14-15)

Appearance: A fine-grained timber that is a light-yellow to a warm-golden hue.

Hardness: 1210 lbs / 3x Harder than Redwood

Bending Strength: 12,900 psi

Benefits: Naturally resistant to rot, decay, and splinters without any chemical treatments. Offers 30+ year lifespan.

Massaranduba Decking (Brazilian Redwood) - (pp. 16-17)

Appearance: Velvet-red to dark reddish-brown with straight grain. One side is anti-slip and the opposite side is smooth.

Hardness: 3190lbs / 7.5x Harder than Redwood.

Bending Strength: 27,280 psi

Benefits: Excellent durability and low-maintenance. 30+ year lifespan.

WHICH DECKING IS RIGHT FOR YOU?

Decking Profiles

STANDARD & PREGROOVED DECKING

TONGUE & GROOVE (T&G) DECKING

FEATURED PROJECT PHOTO

INSTALLATION

Standard Decking (Ipe Shown - Plug Method & Face Screw)

Pregrooved Decking (Ipe Shown - DeckWise® Hidden Deck Fastener Method)

Tongue and Groove (T&G) Porch Decking (Tigerwood Shown)

DESCRIPTION

For traditional outdoor, uncovered decks.

Our standard and pregrooved decking are perfect choices for outdoor applications. When installing outdoor decking, leave a gap between deck boards of 3/32" for air-dried material or 1/4" gap for kiln-dried material. The difference in gap spacing ensures the decking has room to expand and contract, depending on the material used and the environment where it is installed.

For use with covered porches, sunrooms, & patios only.

Is it time to replace your worn out porch? Our precision-milled tongue & groove decking creates a seamless, beautiful surface ideal for covered porches or sunrooms. Once installed, T&G decking is similar to interior hardwood flooring because it leaves no gap spacing between the boards. So forget about only enjoying your deck during the summer; give yourself a personal retreat you can escape to anytime of the year.

ADVANTAGE DECKING™ BENEFITS

CONVENIENT ORDERING PROCESS

LIFESPAN SCALE

How many years pass before you have to replace your deck? Lifespan charts are based on the proven performance of exotic hardwood decking, regardless of the environment.

100%
ALL NATURAL
NO ADDITIVES

ECO-FRIENDLY

Unlike chemically treated wood and composite decking, Advantage Decking™ does not require constant maintenance, sanding, or refinishing. The benefits you receive are all 100% natural.

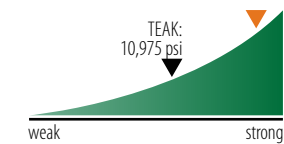

HARDNESS SCALE

The ability to withstand foot traffic, falling objects, and pets will vary by species of wood. Teak decking has long been the benchmark for exotic outdoor decking, which all Advantage Decking™ species far exceed.

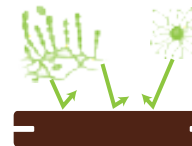

TERMITE PROTECTION

All of the decking options available to you are naturally resistant to termites. *Did you know* the US Naval Laboratory determined it would take 15+ years for termites to bore through a buried piece of Ipe?

BENDING STRENGTH SCALE

The ability of a single deck board to resist breakage when subjected to an external force that causes it to bend.

MOLD & MILDEW REPELLING

The natural oils and density in Advantage Decking™ reduce the chance of both mold and fungal growth.

DECKING FOR ALL CLIMATES

From the frozen tundra of Green Bay to the hot and humid air of Miami, every species of Advantage Decking™ is naturally primed for optimal performance. With their natural oils, cell structure, and tight grain, our hardwoods can handle decades of freeze/thaw cycles without any required maintenance.

FLAME SPREAD RESISTANT

All species of Advantage Decking™ have up to a class A Rating for flame spread. Unlike softer woods and composites that melt or spread fire rapidly, the density of our hardwoods help contain any exposed flame around its point of origin. This benefit makes Advantage Decking™ a great option for homes in dry brush areas, and other fire-prone regions.

HOW MUCH DECKING MATERIAL WILL I NEED? - Calculate Your Deck Size

1 The first thing you need to know before placing a decking order is how much material you'll need. First, get a rough estimate of your deck's square footage by multiplying its length by its width. Then, go to AdvantageLumber.com® where you'll find a handy calculator to convert your deck's square footage to linear feet. Linear footage is how decking is measured, so once you have that number you're ready to get your custom quote!

HOW MUCH DOES EACH OPTION COST? - Get a Deck Quote

2 Once you know how much decking you need, getting an accurate quote for Advantage Decking™ is easy. Simply call us, or visit AdvantageLumber.com® and fill out the convenient online quote form. All of our decking options are listed on the quote form. You can also get pricing on products such as hidden fasteners, railing, lighting, and other decking accessories.

HOW DO I BUY? - Place Your Order

3 We make placing your order as easy as possible! You can choose to order your deck one of three ways:
1) Call during normal business hours to place your order with one of our customer service experts.
2) Email your order directly to our Sales Department (Email Address: Sales@AdvantageLumber.com)
3) Visit our online shopping cart at BuyHardwood.AdvantageLumber.com to purchase any decking or deck building accessories you need 24/7/365!

WHERE CAN I GET MORE OF MY QUESTIONS ANSWERED? - FAQ's

Do you have additional questions? Visit our FAQ section for more information on the ordering process and much more. As always, you can reach the professional staff at AdvantageLumber.com® directly by calling 1-877-232-3915.

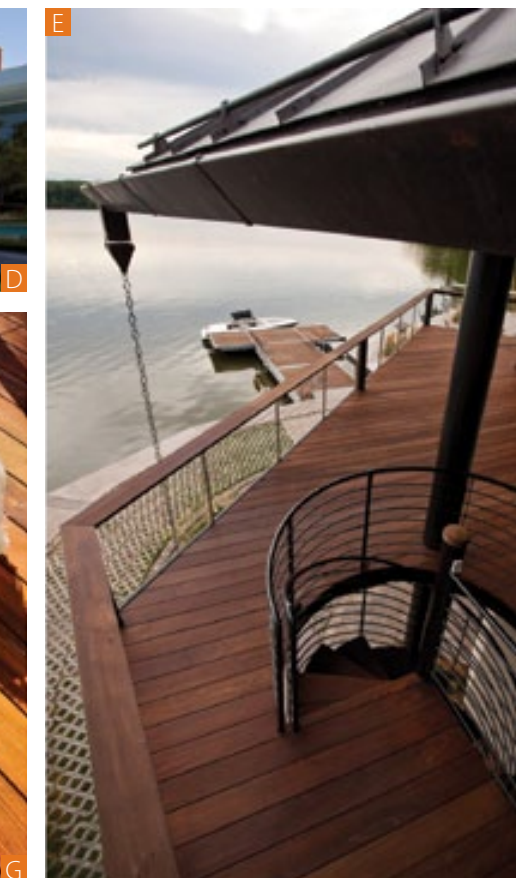

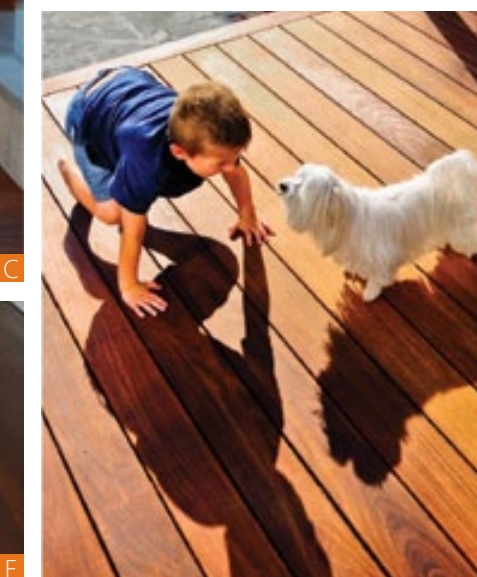

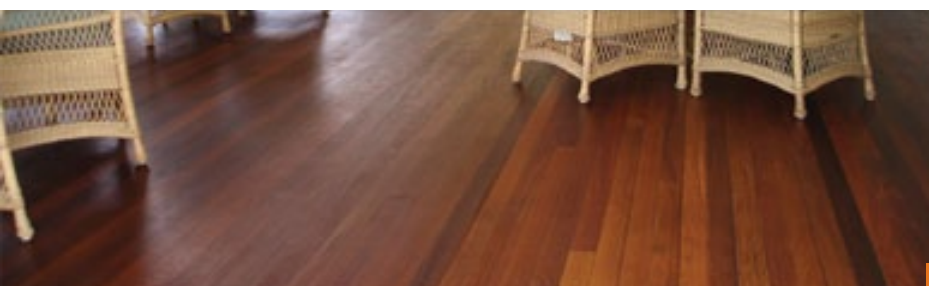

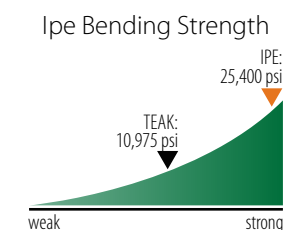

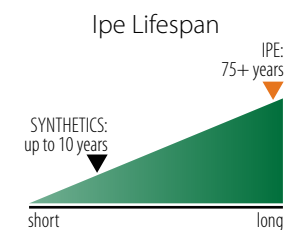

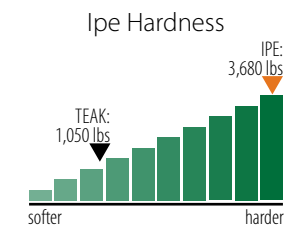

DECKBUSTERS - ADVANTAGE DECKING™ BENEFITS PUT TO THE TEST!

ADVANTAGE IPE™ DECKING

Also known as: Brazilian Walnut

The World's Best Decking

Advantage Ipe™ (pronounced EE-pay) is the finest-quality wood available. From the famous Atlantic City Boardwalk, to your own backyard, Advantage Ipe™ decking is proven to keep its integrity and last longer than any other decking material. Advantage Ipe™ is naturally resistant to rot, and is over 3 times harder than traditional Teak. These natural qualities mean an Advantage Ipe™ deck can last 75+ years without constant staining or refinishing. Advantage Ipe™ decking is responsibly harvested from managed forests to provide a truly renewable resource. For added peace of mind, Advantage Ipe™ also features up to a class A rating for flame spread, making it a great option for homes in dry brush areas, rooftops, and other fire-prone areas.

Advantage Ipe™ Decking Offers All Natural Beauty

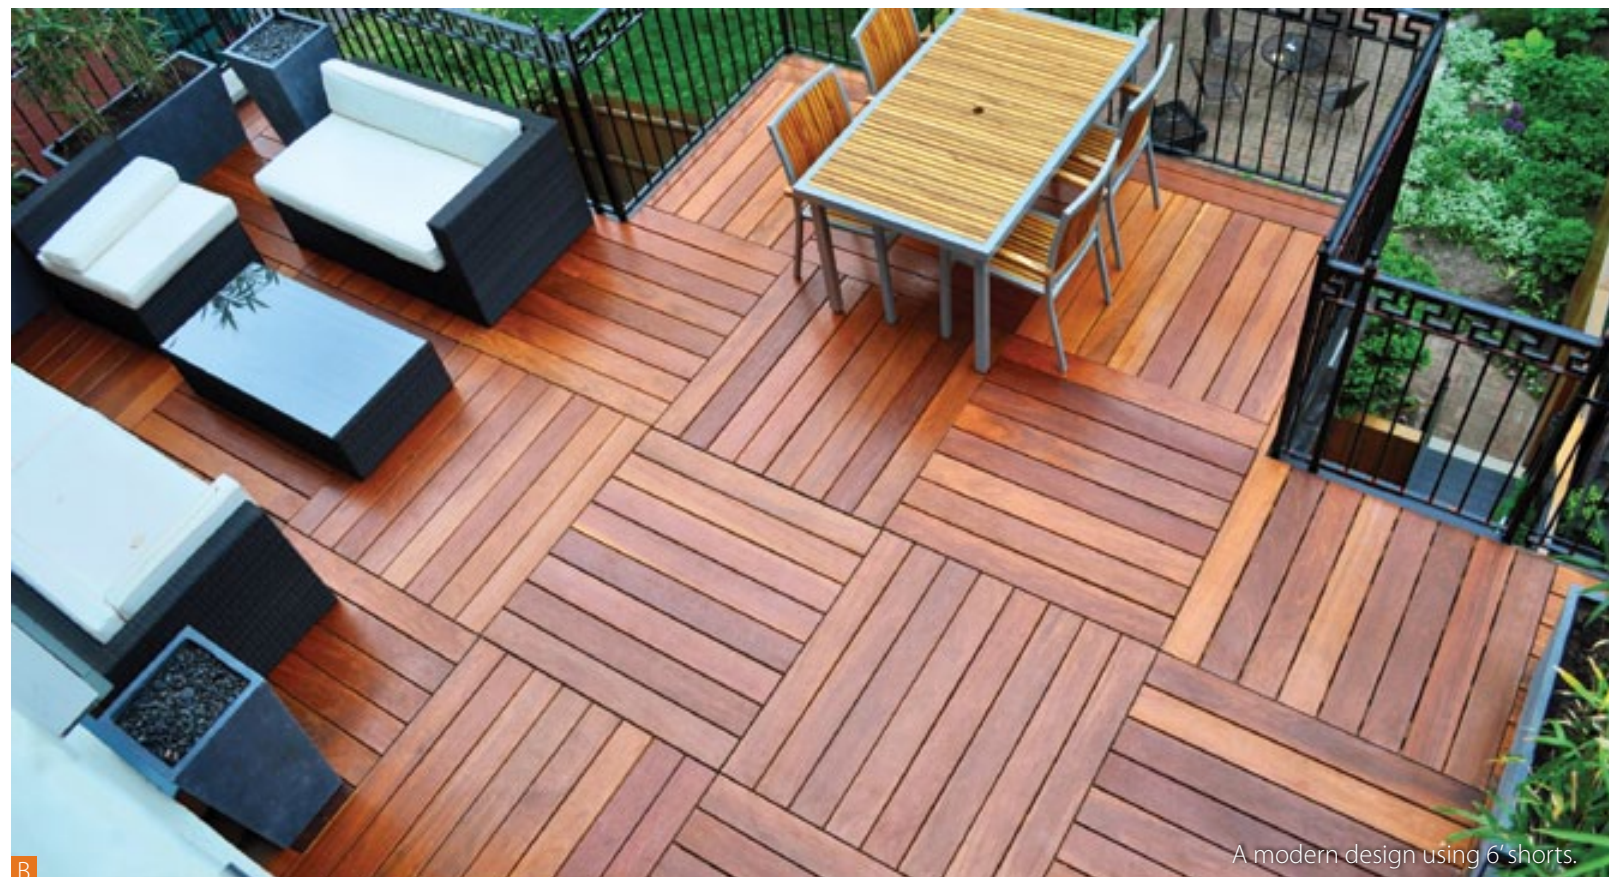

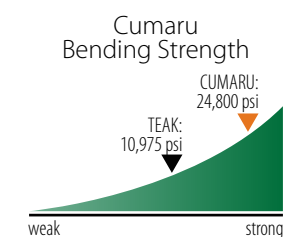

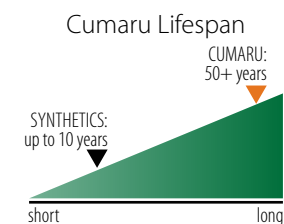

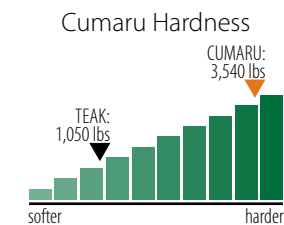

- A** Pregrooved Ipe Decking - *San Francisco, CA*
- B** Pregrooved Ipe Decking - *Malibu, CA*
- C** Pregrooved Ipe Decking - *San Francisco, CA*
- D** Rainscreen Ipe Siding - *Palm Springs, CA*

- E** Pregrooved Ipe Decking - *Chicago, IL*
- F** T&G Ipe Decking - *Sarasota, FL*
- G** Ipe Decking - *Prospect, KY*

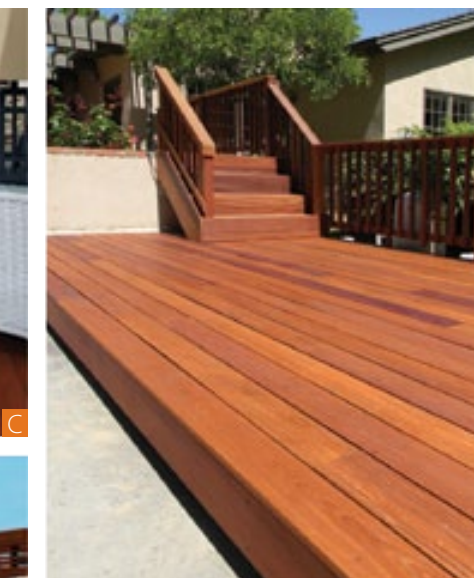

ADVANTAGE CUMARU™ DECKING

Also known as: Brazilian Teak

Resilient Decking For All Environments

Advantage Cumaru™ (ku-mah-roo) is an incredible, low-maintenance hardwood that offers a beautiful array of amber red to golden honey colors. Each board of premium grade Cumaru is also naturally resistant to rot, decay, and insects. This exotic hardwood species rivals Ipe in strength and is 3 times harder than Teak. With a lifespan well over 50 years, you will enjoy your new Cumaru deck for decades. With such strength, beauty, and longevity, an Advantage Cumaru™ deck is a terrific investment that adds value to your home. The deck pictured above (B) was built with 6' Cumaru at a significant cost savings.

Advantage Cumaru™ Decking Offers Unmatched Versatility

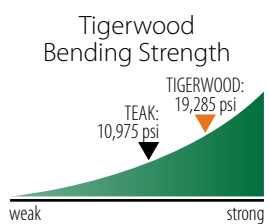

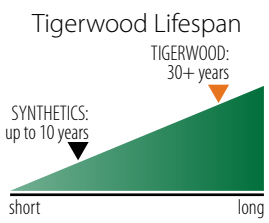

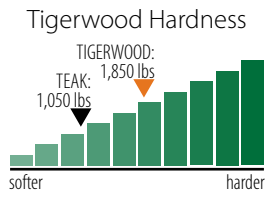

- A** Pregrooved Cumaru Decking - *Bloomfield, MI*
- B** Pregrooved Cumaru Decking - *Brooklyn, NY*
- C** T&G Cumaru Decking - *Boston, MA*
- D** Cumaru Pergola & Decking - *Miami, FL*

- E** Pregrooved Cumaru Decking - *Carlsbad, CA*
- F** Cumaru Shiplap Siding - *Los Angeles, CA*
- G** Cumaru Dock - *Newport Beach, CA*

ADVANTAGE TIGERWOOD DECKING®

Also known as: Brazilian Koa

Exotic Decking that Stands Out from the Competition

Advantage Tigerwood™ is a hardwood that lives up to its name. Boasting a gorgeous display of reddish-brown to rusty orange hues with black streaking throughout, Advantage Tigerwood™ creates decks that define the word “exotic.”

The benefits of Advantage Tigerwood™ include:

- Up to 40% cheaper than imitation plastic decking
- 30+ year lifespan without preservative treatments
- Natural beauty truly worthy of your home
- Robust performance for every season
- Low-maintenance
- Proven rot, decay, & mold resistance

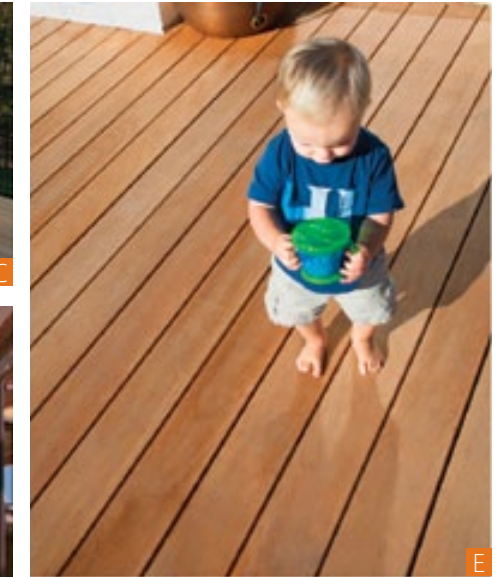

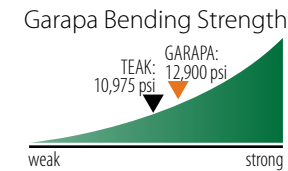

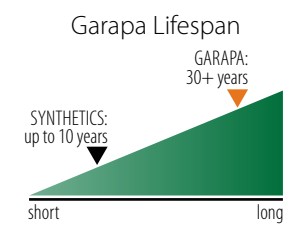

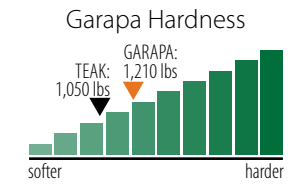

Advantage Tigerwood™ Decking Gives You the Striking Deck You Desire

- A** Pregrooved Tigerwood Decking - Orchard Park, NY
- B** Pregrooved Tigerwood Decking - Mahtomedi, MN
- C** Tigerwood Siding - Corona del Mar, CA
- D** T&G Tigerwood Decking - Raleigh, NC
- E** Pregrooved Tigerwood Decking - New Berlin, WI
- F** Pregrooved Tigerwood Decking - Rochester, NY
- G** Pregrooved Tigerwood Decking (a dynamic mix of varying-width decking) - Windermere, FL

ADVANTAGE GARAPA™ DECKING

Also known as: Brazilian Ash

Advantage Garapa™ Sets the Gold Standard

Advantage Garapa™ glows with a light-yellow to golden-honey hue and features a fine grain. Naturally resistant to rot, decay, and insect attack, our Garapa Decking is one of the finest-quality hardwoods available. Advantage Garapa™ originates from managed forests and provides a truly renewable resource.

Advantage Garapa™ Decking Creates Luxurious Decks Without the High Price

- A** Pregrooved Garapa Decking - *San Clemente, CA*
- B** Pregrooved Garapa Decking - *Laguna Beach, CA*
- C** Pregrooved Garapa Decking - *Charlotte, NC*
- D** Pregrooved Garapa Decking - *Wichita, KS*
- E** Pregrooved Garapa Decking - *San Clemente, CA*
- F** Pregrooved Garapa Decking - *Santa Ana, CA*
- G** Pregrooved Garapa Decking - *San Clemente, CA*

ADVANTAGE MASSARANDUBA™ DECKING

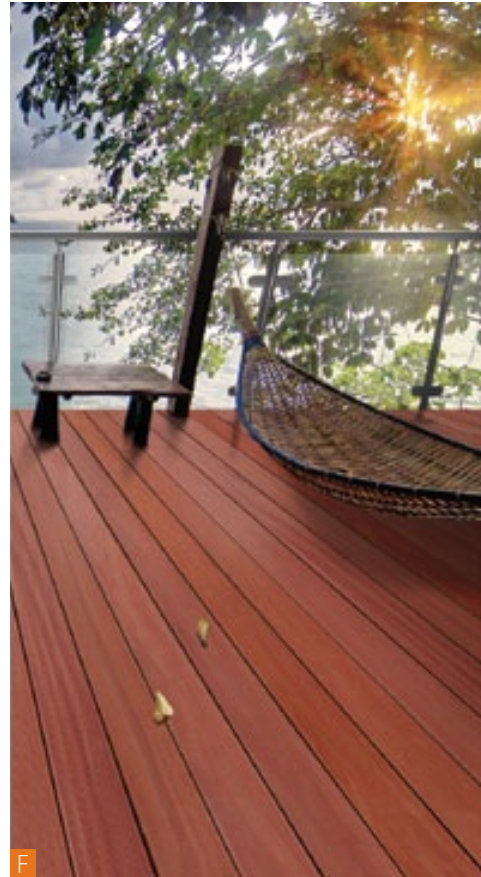

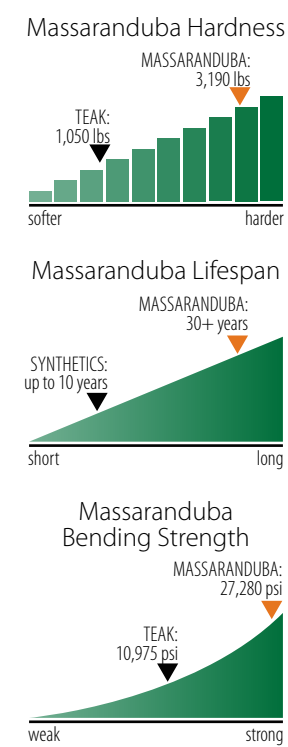

Also known as: Brazilian Redwood

Two-In-One Decking

Anti-Slip Surface

Smooth Surface

Advantage Massaranduba™ features an anti-slip profile on one side and a smooth surface on the opposite side. You can take advantage of the anti-slip surface for stair treads (for extra traction) or you can flip the board over to the smooth face for a more traditional look.

Advantage Massaranduba™ Outperforms & Outlasts Traditional Redwood

Advantage Massaranduba™ bears the distinction of being one of the hardest and most beautiful woods in the world. With such a dependable material, you can enjoy outdoor living year-round without worrying about constant staining or heavy-duty maintenance. One surprising fact about this natural hardwood is how well it performs under heavy load (bending strength) tests. These tests revealed that, as a decking material, Massaranduba is twice as strong as California Redwood.

Advantage Massaranduba™ Decking - Beauty & Robust Strength in One Package

- A** Pregrooved Massaranduba Decking - *Miami, FL*
- B** Pregrooved Massaranduba Decking - *Miami, FL*
- C** Pregrooved Massaranduba Decking - *Miami, FL*
- D** Pregrooved Massaranduba Decking - *Miami, FL*
- E** Pregrooved Massaranduba Decking - *Albuquerque, NM*
- F** Standard Massaranduba Decking - *Miami, FL*

ADVANTAGE SHIPLAP SIDING™

Advantage Rainscreen Siding™ is best installed with **DeckWise® Hidden Siding Fasteners**

Achieve a Traditional, Timeless Look with Advantage Shiplap Siding™
Advantage Shiplap Siding™ mixes tight grain and natural oils to create a reliable barrier to the elements. The varied grain patterns of each board are great at hiding outdoor dirt and daily wear. Thanks to its lifespan of 30 years or more, you will be happy with this low-maintenance siding option.

- A** Ipe Shiplap Siding - Irvine, CA
- B** Ipe Shiplap Siding - Cyprus, E.U.
- C** Cumaru Shiplap Siding - Williamsville, NY
- D** Cumaru Shiplap Siding - Los Angeles, CA
- E** Ipe Shiplap Siding - Encino, CA

ADVANTAGE RAINSCREEN SIDING™

Advantage Rainscreen Siding™ Provides an Updated, Modern Look
Durable. Long-lasting. Authentic. Unlike the artificial appearance of vinyl or aluminum siding, the look of genuine Advantage Rainscreen Siding™ cannot be duplicated. Advantage Rainscreen Siding™ is specially milled in the United States and requires NO pre-drilling.

- A & D** Ipe Rainscreen Siding - Palm Springs, CA
- B & C** Ipe Rainscreen Siding - Chicago, IL
- E** Ipe Rainscreen Siding - Los Angeles, CA

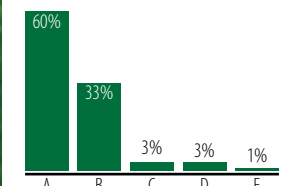

FSC® CERTIFIED DECKING

Our Sustainable Forestry Practices & How You Can Help

Causes of Deforestation in the Amazon*

A) cattle ranchers B) small scale agriculture
C) fires, dams, mining, etc. D) logging
E) large scale agriculture

WHAT DOES THIS GRAPH MEAN?
Most deforestation (60-70%) in the Amazon is a direct result of cattle ranches. The majority (33%) of the remaining deforestation mostly results from small-scale subsistence agriculture.

*http://www.mongabay.com/general_tables.htm

The mark of responsible forestry

Established in 1993, the Forest Stewardship Council® (FSC®) is a global organization that strives to promote responsible forest management. While all of our material originates from well-managed and heavily regulated forests, we also offer our customers the widest variety of FSC® certified wood decking. When the FSC® certification is included with our wood products, it provides the most credible link between responsible production and consumption.

When you buy FSC® certified decking, lumber, or flooring from AdvantageLumber.com® you can be sure you are purchasing responsibly harvested material. Our FSC® certified material is produced in a fashion that ensures conservation of natural forests and other habitats around the world.

How Do We Help?

When you buy exotic decking from a reputable company that practices responsible forestry management, you are saving the forest by putting real value on the timber.

While it may seem unbelievable that land owners burn forests that contain valuable resources, it is unfortunately more profitable for them to clear cut trees than to go through the bureaucracy of obtaining the environmental surveys, forest management plans, and permits required to harvest even a few trees.

Sustainable forestry management annually saves tens of thousands of acres from being burnt for agricultural cash cropping, charcoal production, mineral extraction, and cattle grazing. By selectively harvesting a few trees per acre, we ensure forests will not only survive, but remain for many generations to come.
